

Simplify and Streamline Your Grants and Study Management Process

MedCompli's CompliGrant Module simplifies the entire lifecycle of managing the submission, review and approval of Grants, Charitable Donations, or Investigator Initiated Study requests.

MedCompli's CompliGrant Charitable Donation and Grants Management Portal allows an organization to seamlessly receive, review and manage a wide variety of requests. No more emails, paper request forms or missing documentation.

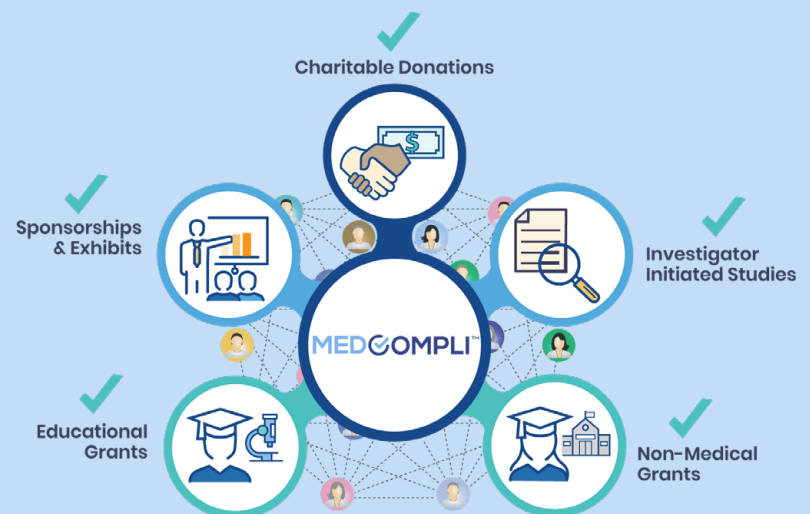

MedCompli provides each client with a customized, branded portal that physicians or organizations can use to submit requests for product donations, fellowship support, investigator initiated clinical trials, or medical education grants.

Title	Actions
Medical Education Grant ConvaTec	Create New Request
Investigator Initiated Study ConvaTec	Create New Request
Charitable Donation	Create New Request
New Idea Concept or Invention	Create New Request

Grants Management Solution

Maximize efficiency and measurement throughout your grant's life cycle with our highly flexible, all-in-one solution that fits your organization's unique needs. Examples are:

- > Medical Education
- > Sponsorships
- > Charitable Donations
- > Fellowships
- > Scholarships
- > Academic Research
- > Investigator Initiated Studies

Personalized and Branded Portal

MediCompli's Grants Management Solution is a scalable, easy-to-use, configurable solution:

- Customizable Request Forms & Configurable Approval Workflows
- Centralize Submitted Requests and Reporting

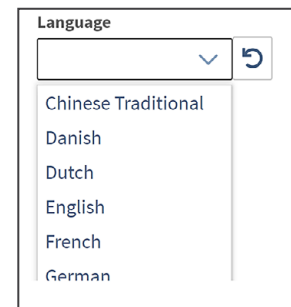

Microsoft

Cognitive Services

Global Solution Powered by Microsoft

Seamlessly translate funding request forms into over 70 languages.

Starting at just
\$13.69/day

\$5,000 billed annually. Additional fees may apply based on number and complexity of request forms. CompliGrant is available separately but is seamlessly integrated into the MedCompli Global Compliance Platform, a unified, end-to-end solution specifically designed to enable life sciences companies to compliantly manage high-risk business functions.
